

Providing consent for your child to receive a vaccination at school

NSW School Vaccination Program

What is the NSW School Vaccination Program?

NSW Health works in partnership with schools to offer the vaccines recommended for adolescents by the National Health and Medical Research Council (NHMRC) in a school-based vaccination program. In Year 7 children are offered the human papillomavirus (HPV) and diphtheria-tetanus-pertussis (dTpa) vaccines and in Year 10 they are offered the meningococcal ACWY vaccine. Parents/guardians must provide consent for their child to receive routine vaccinations. More information about school vaccination is available at health.nsw.gov.au/schoolvaccination

How do I provide consent for my child to receive a vaccination at school?

This NSW School Vaccination Program portal allows parents/guardians to provide online consent for their child to receive the routine vaccinations. Your child's school will provide you with a link to the portal, where you can log in using your ServiceNSW account on any device with an internet connection. To meet online security requirements, you will need to provide both your and your child's Medicare card number to proceed online. If you or your child do not have a Medicare card, consent can be still provided by requesting a paper-based consent form directly from your child's school.

Consent process overview

1. Access the link to the **NSW School Vaccination Program Portal** and follow the steps to log in to your existing ServiceNSW account. This is the same account you may already use to renew your driver's licence. If you don't have a ServiceNSW account, refer to [ServiceNSW](#) to create one.
2. Update or confirm your personal details in your ServiceNSW as required.
3. Complete the School Vaccination Consent Form for your child/ren. You will need to:
 - a. Enter your child's personal details
 - b. Provide the Medicare card details for you and your child
 - c. Read the linked Parent Information Sheet
 - d. Provide consent
