Safe car travel to and from school by private vehicle for senior students

Dear Parent / Guardian,

In line with the NSW Department of Education Safe Use of Cars by Students, Staff and Parents advice, students who are licensed drivers may drive to and from school. This is the decision of the student, their parents or carers and the owner of the vehicle.

For the school to maintain the required duty of care, we require any students driving to and from school in their own cars to provide the details below, including any siblings they are transporting, and return to the Front Office as soon as possible.

Using private vehicles to transport themselves and/or other students to and from school activities

Allowing students to use private vehicles to transport themselves and/or other students to and from school activities is a privilege granted by the principal and must be strictly supervised by the school. The principal can revoke this privilege at any time. If the privilege is abused, the principal must withdraw approval immediately.

Permission notes will outline the driver and the passengers involved for each school activity if travel is required. At no time are students permitted to sign out of school early and transport others home.
